TECHNICAL SKILLS

RESTful APIs with 11 years of experience | Server-side Applications (10) | C# (10) | JavaScript (10) | TypeScript (4) | Node.js (7) | React Js (6) | Redux (6) | Angular Js (3) | CSS (10) | HTML5 (10) | Material UI (6) | Next.js (2) | Express.js (5) | jQuery (8) | Rest API (8) | Microservices (5) | Asp.Net Core (5) | Asp.Net MVC (10) | .Net Blazor (3) | Winforms (5) | WPF (4) | MS Sql Server (10) | MongoDB (4) | Oracle (4) | Bootstrap (3) | GraphQL (2) | WCF (3) | Web Services (6) | MS Azure (6) | AWS (4) | Google Cloud (2) | CI/CD (3) | Postman (7) | Soap UI (5) | Source Gear (4) | Jenkins (3) | Sourcetree (4) | TortoiseSVN (3) | Jira (5) | Asana (6) | Agile/Scrum (10)

WORK EXPERIENCE

12/2024 – Present

Sprinting Software, Copenhagen, Denmark (Remote)

Project: [Edda Group](#), European based company is recognized as a leading Scandinavian staffing and Recruitment Company provides flexible workforce solutions, empowering individuals through employment and companies through skilled personnel.

- Contributed to an agile team of 15+ engineers, leading the development of a robust and scalable staffing recruitment solution from scratch, transitioning to a modern web-based platform using RESTful APIs, Node.js, C#, MVC, .Net Blazor, React.js, Redux, Material UI, and MS SQL Server. Delivered clean, well-documented code, supporting seamless scalability to 100+ clients with a high customer satisfaction rate on the newly converted module.
- Implemented continuous integration and continuous deployment (CI/CD) processes to automate software builds, testing, and deployment, resulting in increased development efficiency and reduced software release times by 2 weeks.
- Conducting code reviews, providing constructive feedback, and maintaining code quality standards to ensure robust and maintainable applications. Mentored and coached junior developers, resulting in a 20% improvement in team satisfaction scores and a 25% increase in overall team productivity.
- Developed a Postman collection for testing API's. This automation reduced testing efforts by 84%. Improved database performance and loading speed by 80% through SQL query optimization and database defragmentation.

Technologies used: RESTful APIs | Node.js | Express.js | React Js | Redux | JavaScript | Next.js | Material UI | .Net Blazor | TypeScript | MS SQL Server | C# | Winforms | WPF | Asp.net MVC | Asp.Net Core | CSS | C# | Html | Html5 | GITHUB | GIT | CI/CD | Postman | Jira | Agile

01/2019 – 12/2024

Contour Software, Karachi, Pakistan

Project: Centama, US-based All-In-One Attraction Management Software to manage the complete customer experience used by 1k+ event locations worldwide like Australia Zoo or Kalahari resorts.

- Contributing to an agile team of 8 engineers, responsible for developing the new admin portal from scratch using (RESTful APIs, Node JS, C#, AWS, React Js, Redux, Material UI, Microservices and MS SQL Server) and guiding other team members
- Developed the new webstore (Guest Ticketing) from scratch which is much faster and customisable and added multiple payment gateways. Moved our customers from legacy products to this new Webstore which increased satisfaction by 91%.
- Wrote a new version of our Web APIs from scratch, added core functionality of the system and upgraded the API's time by time. It increased application performance by 34% and reduced average response time by 50%.

Technologies used: RESTful APIs | Node.js | Express.js | React Js | Redux | JavaScript | Next.js | Material UI | Angular Js | MS SQL Server | C# | Winforms | WPF | Asp.net MVC | Asp.Net Core | Html5 | MS Azure | Google Cloud | CI/CD | Microservices | Postman | Jira | Asana | Agile

09/2016 – 12/2018 Software Developer

BariTechSol, Karachi, Pakistan

Project: MetaPack - European delivery management software designed for eCommerce brands and retailers used by brands like Adidas, The North Face or Burberry.

- Developed high-quality software applications resulting in improved customer satisfaction by 35%.
- Worked with intricate legacy codebases enhancing code performance and fine-tuning queries to significantly optimize procedural operations.

Technologies used: C# | Asp.net MVC | .Net Core | Node.js | JavaScript | Web Services | AWS | MS SQL Server | Oracle | Css3 | Html | Postman | SoapUI | MS Azure | Jira | Jenkins | Source Tree.

03/2014 – 09/2016 Software Engineer

Logical Technologist, Hyderabad, Pakistan

Projects: Fabrication Express, ESchool Technologist (ERP), Mensch, Showroom Express.

EDUCATION

01/2017 – 12/2019 Master of Science in Software Engineering

Karachi Institute of Economics and Technology (KIET), Karachi, Pakistan

01/2011 – 12/2014 Bachelor of Science in Software Engineering

University of Sindh, Jamshoro, Pakistan

ACHIEVEMENTS / CERTIFICATIONS

Microsoft Certified Professional (MCP) | HTML5, CSS3, JavaScript

[International Young People Award](#) | The Bronze Standard

LANGUAGE SKILLS

English (C2) | Urdu (C2) | Punjabi (C2) | German and Spanish (A1, currently learning)

HOBBIES

Volunteering (In Church Activities) | Playing and Watching Cricket and Football | Hanging out with Friends | Read Books | Exploring New Places.
